Squat or Rot came about around Feb. of '88. It was just a bunch of bands getting together, with Ralphy getting a space to play, which usually turned out to be a 13th St. squat. Neil cooked up some food and people brought lots of info, everyone had a great time, and a lot of important things were talked about.

Squat or Rot had begun. Realizing this was a way to get people together, and bands to play without having to rely on the usual "Business Clubs". The shows started happening anywhere we found a place willing to have us. Bands donated their time and effort so the only cost was for renting the equipment, and the money we gave the buildings. It was then that we started helping other causes, such as collecting food to feed the homeless, animal rights benefits, Squatters Legal Defense Fund. When we found out how easy it was to put shows together in Tompkins Square Park we took advantage and had several shows there. Anyone interested-it's \$125 for the N.Y.C. Parks Permit, and a sound permit from N.Y.S. finest, oink, oink.

The time had come to spread the word and help Squat or Rot grow. And it was time to help the bands that helped us so many times. We decided to find out about putting together some vinyl. The money for the record came from our pockets, not Squat or Rot funds. We are trying to work this as a collective, with everyone getting involved, and our brothers and sisters around the world helping with the distribution. All the profits from this record will go towards a number of projects. We are going to try to put out more records, helping any bands that want it. We would like to try and set up some kind of space where we can have shows, distribute literature, even serve vegetarian & vegan food. That is our biggest goal. At the moment we are working with Food Not Bombs, feeding the homeless on Wednesdays and Sundays at 6:30 in Tompkins Park. We are always looking for help, even to

Europe Bans Treated Meat

EUROPE—The 12-nation European Economic Community (EEC) rang in the new year with a ban on imports of meat from animals treated with growth hormones, sparking outcry from agribusiness interests and threats of a trade war from Washington. The move resulted from a 1985 prohibition on hormone use within the EEC member nations, which led European farmers to call for similar restrictions on imported meats. Consumer groups, especially in West Germany, have been instrumental in educating many Europeans about the dangers of the use of such hormones as testosterone, estradiol, and progesterone — and the synthetic hormones zeranol and trenbolone — in meat.

Chickens — and other "factory farmed" animals — are routinely injected with growth hormones, stimulants and antibiotics in order to survive the ordeal of intense confinement.

WAR was established by Metzger after he split from David Duke's Ku Klux Klan to more actively and directly recruit young people into a national hate movement.

SCAR, Skinheads Committee Against Racism, joined forces with the ARA and formed a skin-based ARA and formed a skin-based ARA to combat the notorious Area Skinheads (CASH).

Rock Against Racism shows in larger cities, and rock lyrics and performances by the Dead Kennedys, MDC, the Beatnigs, D.O.A., and dozens of other punk bands have attempted to rally young people to anti-racist action. While racist skins were rallying in San Francisco on May 1, New Yorkers were gathered at a Rock Against Racism show in Central Park.

WAR leader Tom Metzger said, "Skinheads the world over the white race... If they give them trouble, they will smash it." The Examiner said, "Neo-Nazis and skinheads are coming to New York."

BAD PHRASES

"Humane slaughter" — a contradiction in terms.

"Put to sleep" or "put down" — masks the reality.

"Euthanize" at animal shelters — euthanasia applies to mercy killings and most animals killed in shelters are healthy. Are we putting them out of their misery or ours? Yes, a lot of companion animals do not find homes, but perhaps if the public understood the reality of what happens to these animals, there would be fewer of them for us to kill.

"Excess animals" — says who?

Can't get out of your chair? too tired? too drained from all the nonsensical garbage an activist must face everyday? Well, have we got the trick for you! Just lift the receiver on your telephone and call the companies listed below; tell them how you feel — politely, of course. Remember, it's their nickel — and that's one less nickel that goes toward their abusive activities. Get it?

PETA CALLS BOYCOTT

People for the Ethical Treatment of Animals (PETA) has released information that shows that Kenner's Play-Doh, Glo-Doh and Ghostbusters Ecto-Plazm were all force-fed and/or applied to the shaved and abraded skin of animals at Philadelphia's Biosearch laboratory, now under investigation for violation of federal and state anti-cruelty laws. Letters requesting an end to the tests should be mailed to Karl Wojahn, Vice President, Product Integrity, Kenner Products, 1014 Vine St., Cincinnati, OH 45202 and Stephen G. Shank, Chairman and CEO, Tonka Corporation, 6000 Clearwater Drive, Minnetonka, MN 55343 (Tonka is Kenner's parent company). Phone Kenner directly at 1-800-543-4663.
